

DEBIT CARD **ENABLE/DISABLE** SETTINGS

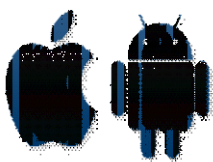

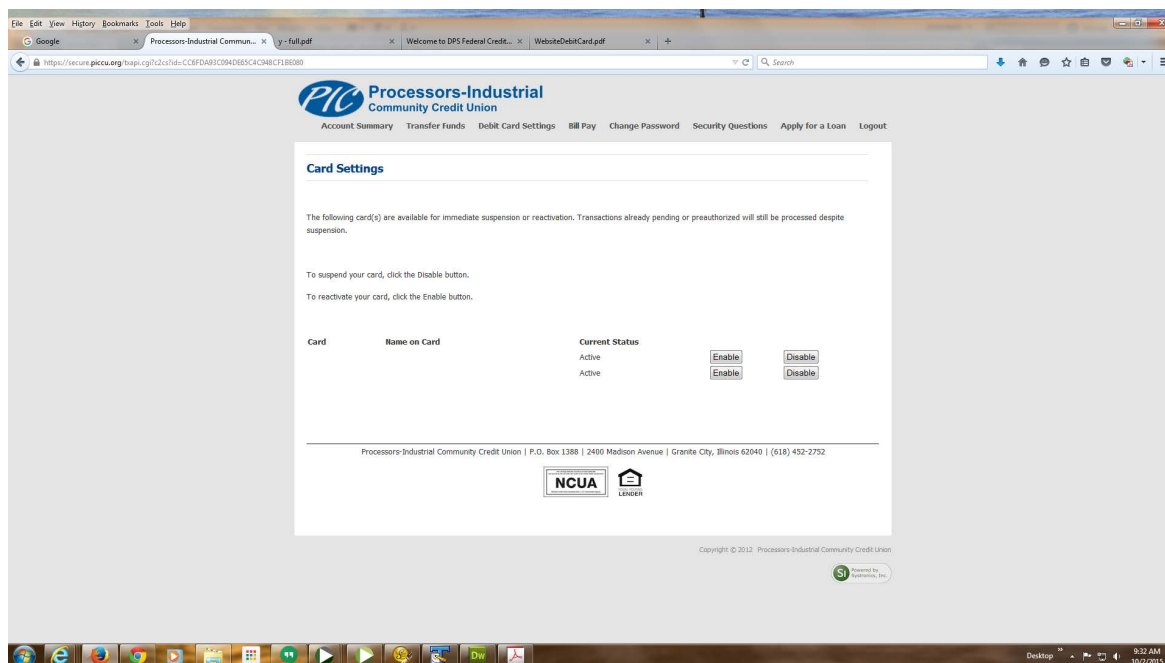

Wouldn't it be great to have control of the security of your debit card when you aren't using it? That capability is in your hands with a click of the switch!

You can maximize the security of your Debit Card by using the **enable/disable** switch through your on-line banking or the **mobile app**. If you haven't signed up for on-line banking yet, contact the credit union. For current on-line users:

ON-LINE BANKING

- Go to www.piccu.org
- Log-on to your On-line banking
- In the list of menus on the left, click on Debit Card Settings
- Click on the enable or disable option

Mobile Banking
Now Available!

MOBILE APP USERS

- Go to your app store and down-load our free on-line banking app
- Login to your On-line banking
- On the left menu, tap on Debit Cards
- It will bring up your list of debit cards
- Select the appropriate debit card to activate or deactivate
- It will bring up the Debit Card Status
- Tap on enable, disable or no action
